**PROPEL**® fungicide provides broad-spectrum disease control in wheat, barley, oats, and canola, and also suppresses septoria leaf mottle on canary seed. Defend your investment from diseases that can rob your crop of yield and quality.

**Product Benefits:**

- Propiconazole - Fungicide Group 3
- With **PROPEL**, you also have the option of protecting crops even earlier because the product is registered to be tank mixed for in-crop herbicide application timing
- **PROPEL** is rainfast in 1 hour
