

AWAKEN.

www.lovelandproducts.ca

AWAKEN® formulated with zinc ammonium acetate and a balanced micro nutrient package is a versatile product which can be used across all your acres. Application and formulation flexibility allow **AWAKEN** to be used as an early season nitrogen supplement and a stress relieving product, maximizing early season plant performance and end of season returns across all acres.

Product Benefits:

- Plant nutrient blend of zinc ammonium acetate
- Application flexibility
- Compatible with wide range of tank mixes
- Wide application window
- Promotes plant health and vigour
- Assists plants in tolerance to stress conditions
- Better nutrient uptake
