

Green With Envy

www.lovelandproducts.ca

GREEN WITH ENVY® is a 16-8-3 plus EDTA chelated micros (Cu, Fe, Zn & Mn) that strengthens the crop's ability to overcome stress caused by weather, herbicides, insects or diseases by providing needed nutrition at stressful times to maintain plant metabolism.

Product Benefits:

- Convenient liquid product makes an easy and simple tank-mix partner
- Less stress and more consistent weed control from herbicide applications
- Promotes growth and yield
